FRED LIVES!

BLACK PANTHER PARTY TO HAVE SURVIVAL WEEK

Two years ago, on December 4, 1969, Fred Hampton, Deputy Chairman of the Illinois chapter, and Mark Clark, of the Peoria chapter of the Black Panther Party, were viciously murdered by the City of Chicago. For black people, this murder came as no surprise, for the Chicago pigs have murdered many a black person with never a word mentioned in the papers or a follow-up in court. But this particular murder follows another pattern - that of the conscious attempt by the ruling class to murder revolutionary black leaders who pose a threat to their power. There have been many before Fred and Mark and many after. Malcolm X and George Jackson, to name two. These revolutionary leaders were a threat because their ideas and their lives were a living testimony to a more humane alternative to the racist system of capitalism that we live under.

But as Fred said himself, "You can kill a revolutionary but you can't kill the revolution." Fred and Mark lived and died for the people and their ideas live on. They live on in the hearts of the people and in the daily practice of the Illinois Black Panther Party. Fred always said that the revolution is more than seizing state power - more than a war. It is also building a new world - a better world - a socialist world where the people have the power and their needs are met. Fred also understood that the people would best understand this by seeing it and by doing it. If you check out the Black Panthers today, this is exactly what is happening. Specifically, the Party has started several survival programs that are run by the Party and the community, whose services are all free. There is no question of people's ability to pay for these services - only of one's needs.

The survival programs are many, for instance they have 3 free breakfast for children programs which serve a hot nourishing breakfast to 800 children daily. In addition, free food is available in both of the Party's offices. To deal with terrible health conditions and high medical costs, the Panthers have the Spurgeon 'Jake' Winters Free Health Clinic which is open 4 nights a week and Saturday during the day. The free health center is serviced by professional doctors and nurses whose concern is good health care for the community - not making money for themselves. In addition, the Panthers have initiated a sickle cell anemia screening program in the communities and public school system. Although 1 in every 10 black people carry a trait of this crippling disease, virtually no money is budgeted by the Federal Government to deal with it because it only affects black and latin people. Thus, millions of black people suffer without knowing the cause or how to cure it. The Party has already performed free tests for 8,000 people in Chicago and Maywood alone. Plus the national Black Panther Party has started a foundation whose concern is research on sicle cell treatment and cure. Another problem facing black people is the unjust and inhuman incarceration of their people in jails through out the state. Jails which are situated far away from Chicago and expensive and difficult to visit. Consequently, the Panthers have a free bus which leaves once a week to an Illinois prison - Joliet/Statevelle, Pontiac or Dwight to enable families of prisoners to see them. To aid the brothers and sisters inside the jails, the Panthers are starting a Prisoners Commissary Program which will give commissary money plus toilet items (toothbrushes, towels, soap, etc.) to the prisoners. These are just a few of the Illinois Black Panther Party's programs. Their importance is that they show us that life can be better and we the people are capable of making it better. They also raise the question of how much more we could do and how much better life could be if we, the people, were running the country.

This year, in the spirit of Fred and Mark, the Black Panther Party is having a survival week from November 29th to December 4th. People from all over Chicago are now being asked to contribute in any way they can; by donating food, new shoes or holding 'can dances' where one would pay in food instead of money and then the food should be turned in to the Panther office. On December 3rd there is going to be a city wide student/worker strike. On December 4th, there is going to be a rally where Chairman of the Black Panther Party, Bobby Seale, Deputy Chairman of the Illinois Chapter, Bobby Rush and Rev. Koen of the United Front of Cairo and others, will speak. After the speeches, 5,000 bags of free groceries and over 100 pairs of new shoes will be distributed to the people. Sickle Cell testing will be going on in a mobile unit which will be parked outside the rally.

Everyone should support Survival Week in any way they can - by contributing, by striking or by attending the rally.

PEOPLE'S GRAPEVINE

NIXON LIES ABOUT ENDING WAR---- AGAIN

On Friday November 12,President Nixon announced a 45,000 man troop cut in Vietnam and said the "United States offensive combat" role has ended. This is an out and out lie --- in the same way the United States government has lied to the people about this war since its beginning. Lets examine this lie!

First, Nixon may well pull out the 45,000 men (25,000 in December and 20,000 in January). That would mean there would still be a bout 140,000 men in Nam - hardly an end to the war. Secondly, he said the "United States offensive combat" role has ended. In fact the United States offensive combat role on the ground ended in 1968 when the National Liberation Front (Vietcong) launched the Tet offensive by simultaneously attacking more than 120 seperate targets thru out South Vietnam, including 30 of 44 provincial capitals and the American embassy in Saigon. Since that time the Provisional Revolutionary Government of South Vietnam (Vietcong) has controlled most of the country except for a number of district capitals and towns. Since that time United States ground forces have played mostly a defensive role. So when Nixon says that his withdrawal of troops is ending "United States offensive combat" he is lying. United States offensive combat was ended by the Vietnamese peoples (called Vietcong) defeat of United States strategy in Vietnam. Because so much of Vietnam is controlled by the Vietcong(PRG) the United States ground forces haven't been able to launch offensive missions for some time. (The refusal of United States GI's to fight in Nam shows their understanding of this reality).

END THE WAR NOW

The withdrawal of ground forces, though, won't end United States destruction of Indochina. The present United States policy is to have South Vietnamese soldiers fight on the ground supported by United States planes. (Thats Vietnamization). To truly end United States involvement in Indochina President Nixon would have to withdraw all United States airplanes from Vietnam, Thailand, Guam and the aircraft carriers sitting off the coast of Vietnam. On this point Nixon said,as troops pull out, "we will not only continue our air strikes, we will have to step them up."As a matter of fact a couple of days after Nixon announced his "troop withdrawal" the Pentagon announced that no Air Force personnel would be withdrawn. Hardly a way to end a war! Hardly a way to stop killing innocent civilians.

To those of us not directly affected by the United States air raids we have no understanding of the damage these raids do to the Indochines people. The tiny country of Laos has had more bombs dropped on it then were dropped on all of Europe in World War II. Between January 21,and February 15, 1968,the United States Air Force dropped more than 120 million pounds of bombs around Khe Sanh, Vietnam. This was greater than the explosive impact of both the Hiroshima and Nagasaki atomic bombs.

(cont. top next column)

Because bombs don't discrimate between civilians and soldiers its clear that the air war is directed, not against guerrilla forces, but against the people of Vietnam. It is an air war of terror to drive huge sections of the people out of their homes and into cities where they can be controlled by the fascist South Vietnam army supported by the United States Air Force.

DON'T BELIEVE NIXON'S LIES

Nixon's announcement of troop withdrawals and the mass media headlines of "Combat Ended in Vietnam" is clearly an attempt to deceive the American people. Because so many of us want the war to end, want the killing stopped, want our brothers home-we will believe anything that tells us the war is over. Although, less American ground troops might be stationed in Nam and American casualties might drop, the terror of war and the murders of thousands of Vietnamese people is continuing. We can't let Nixons lies fool us again. We've got to continue to demand an end to the war.

We must demand (with the Provisional Revolutionary Government of South Vietnam) that the United States government must put an end to its war of aggression in Vietnam, stop the policy of "Vietnamization" of the war, totally withdraw from South Vietnam troops, military personnel, weapons and war war materials of other foreign countries in the United States camp, without posing any conditions whatsoever, and dismantle all United States military bases in South Vietnam."

DON'T BELIEVE NIXON'S LIES – END THE WAR NOW!

SENN HIGH SCHOOL

On Thursday, November 11, there was a major humbug at Senn High School between some Black and Oriental brothers and sisters. It grew out of an incident in the school lunchroom. As a result, a few people got busted, some people got hurt, and another wedge has been driven between the students at Senn.

Senn is not the only high school in the city where such things happen. Often, there is racism involved in such incidents and Black, white, Latin, Oriental and Native Americans are often in the weird position of vamping on each other instead of working things out.

Rising Up Angry has always talked about how incorrect it is for people to fight among themselves. Such violence among the people keeps us weak, defensive and off balance so we can't unite with each other to fight the real enemy. We know how the schools and the pigs mess up our minds. We know that just trying to grow up in our neighborhoods is enough to make people angry and frustrated and ready to start fighting on a moment's notice. We're all on edge. But we have to recognize that the pigs keep us harrassed on the corner or in the park, see to it that we get bad drugs, make schools into prisons and keep us fighting with each other instead of them.

Think about it.....

POWER TO THE BROTHERS AND SISTERS WHO FIGHT THE REAL ENEMY

DEMONSTRATION OF UNITY AGAINST THE GOVERNMENT

About 5,000 people got it on Saturday, November 6 and marched and demonstrated against the Nixon war machine, U.S. atomic testing in Alaska, welfare cuts, exploitation of women in Amerika, the Nixon wage freeze and the persecution of homosexuals.

The demonstration represented a cross section of people in the U.S. that are being messed over by

5,000 people gathered at Grant Park at anti-government demonstration on November 6.

the government and big business. Veterans from Vietnam and other wars, trade union people, workers from plants around the city, welfare rights people, and a good number of brothers and sisters from the high schools and neighborhoods around Chicago. People of all races, young and old, came out on a cold and windy Saturday afternoon to tell the monsters who run this country that we are hip to their game. Even though a lot of issues were discussed during the rally and demonstration, it is clear that the issues are all related to each other. The Saturday demonstration, was an example and indication that the people of Chicago are able to get together and begin to confront the conditions which keep us down.

We are all more aware of the many things we can unify around and begin to build programs in our neighborhoods and schools and plants which will truly serve the people and stop the pigs.

SEIZE THE TIME–ALL POWER TO THE PEOPLE

ALBANY PARK

On Saturday night, November 20, a dance was held at the old Strawberry Fields dance hall. It was put together by a lot of people in the neighborhood. In fact, the Tuesday night before the dance, 38 people came to a meeting where we set up all the things that had to be done at the dance, such as security, clean-up, and refreshments.

The dance itself was successful in that we did o.k. financially and a lot of people came and had an out-a-sight time. It showed us the good spirit people have when they work collectively.

The money that we made will go toward a community center in which we will run certain programs to serve the community. For example, a legal clinic to provide lawyers for people (cheap or maybe free), a food co-op which would sell fruits and vegetables cheaper than a large chain store, G.I. counseling for our brothers that are in trouble with the service and any ideas for other programs would certainly be considered.

Looking at the dance as a positive achievement and the community center as a goal in the future, th there is now a lot of energy and spirit in Albany Park. Thanks to Rush, Taxi and Bittercreek for donating their time and music to the benefit!

ALL POWER TO THE PEOPLE!

TO LOVE WE MUST

The stories listed below were either called in or written up by the people from different communities around Chicago. This is only a small percentage of the crimes com mitted against the people by the pigs - everyday. It's not just the Hipperts or the Keatings or the Chicago Police Department - it's the rulers of America who are bringing us, step by step, to a police state. Welfare is being cut nationally, not just in Chicago and there is an increase in crime, due to the economy falling apart and people losing their jobs - the pigs answer is to get a federal grant for $200 million dollars for Cook county alone. Is this money going to be used for people on welfare? Or to create jobs for people? Or to help get people their basic necessities so they don't have to rob and steal? NO - it's to expand both the mens and womens dorm in the county jail and to put more police out on the street. This is what's happening in America today. A lot of people just lay back while they're being messed over, thinking that they're the only ones that are getting all the bad breaks. It's not just you all this is happening to, and it's not just bad breaks. It's happening to all of us.

If you have any pro blems - call up our office; we have a legal program to get lawyers for people, a breakfast program to feed children and a health clinic to get people good medical care. These programs aren't going to solve all of the people's problems but they will soften the blow of capitalism for some people until the time when All Power to the People becomes a reality and we have the right to determine the destiny of our own lives and our communities.

ALL POWER TO THE PEOPLE!

POLICE OFFICER HIPPERT- "FALLEN" STAR NO. 60654

In the 19th district, commonly known as Town Hall, the people's enemy is police officer Hippert. He is presently working the beat of Paulina and Barry, where he has committed several crimes against the people. He constantly raves and rants about how he owns the streets and sidewalks. He is also notorious for his absurd statements like "It's my turf." and "I run the neighborhood." The only way Hippert can run the neighborhood is by using fascist force. He drives around the neighborhood trying to intimidate people by turning his spotlight on them or yelling at them. He tries to provoke incidents so that he will have an excuse to beat and arrest people.

Not that Hippert needs an excuse to brutalize people. In one incident, two brothers and two sisters were talking to each other in the Burley school playground before it closed. Hippert and his lackey partner (Sullivan) came in and arrested the two brothers for disorderly conduct, even though they hadn't been making any noise.

Another time, Hippert arrested a brother on disorderly and brought him to the Town Hall station and handcuffed the brothers hands behind his back and took him to the garage area of the station where he beat the brother with a billy club and kicked him on the ground. After opening a 1½ in. gash beneath the brothers right eye, Hippert decided it might be nice to take the brother to the hospital. At the American hospital the attendants made numerous slanderous remarks toward the brother and, while his hands were still cuffed behind his back, they stitched the wound without even freezing it. After he was taken back to Town Hall he was beaten again and received 4 bruised ribs. He was finally charged with resisting arrest and disorderly conduct. The next day, Hippert didn't even bother to show up in court and the brother was cut loose on the disorderly charge but fined $25 for resisting - which he didn't even do.

In response to Hippert's brutality specifically, and all police brutality generally, a community meeting was called for on November 15th at the corner of Paulina and Barry. The purpose of the meeting was to encourage unity among the people, let the people know what was happening in the neighborhood, get people to sign the petition against police brutality and gather information on acts of police brutality. About 30 people from the community attended the meeting . One point of unity that was stressed was if the police can attack the young people, they can also attack the older people. In

(cont. top next column)

any community, an attack on one is an attack on all. People must realize this because it is already starting to happen. A women who runs a rummage sale in the store on Paulina and Barry has been harassed by the police and threatened with arrest because she is concerned with what is happening in the community. A petition was passed around asking for an end to police brutality and harassment. There was also a lawyer from Rising Up Angry's Legal Program that took statements from the people against the police. We are going to set up a meeting between the leaders of the community and Alderman Simpson and Commander Nolan of the 19th district. So far this attempt has been stifled by the police department refusing to cooperate with the people.

After a PBC community meeting to protest police brutality.

Some things have been accomplished, because after the meeting, the police are not quite as eager to arrest and brutalize people. Although, they still try to harass and intimidate people so they can provoke an incident in order to make a mass arrest. We, the people, must hip ourselves to the maniacs that run loose in our communities - the police and unite ourselves in order to win!
IN UNITY THERE IS STRENGTH
STOP THE PIGS!
(People are welcome to check out the dynamite rummage sale at Paulina and Barry.)

PUBLIC ENEMY NO.1 IN THE 14th DISTRICT

Patrolman Keating, alias T.P., (stand for top pig, a name given to him by his fascist partners in the 14th), has been arresting, beating and harassing the people of the 14th district for far too long. He has gone from beating the young brothers and sisters at Monticello and Wrightwood to murdering 3 black brothers at Western and Armitage in a supposed robber. (It was listed as justifiable homicide.) This foul low-life fascist fool wears tight black leather gloves and carries a .45 automatic and a black shiny club - extra long. He was in the last issue of Angry for vamping on the people from Fullerton and Pulaski. There are petitions going around the neighborhood of the 14th district against Keating and pig brutality in general. We urge you to sign these. We have to put an end to this fascism and have community control of the police instead of the police brutally controlling the community.

FIGHT

KEATING VAMPS AGAIN

On the 10th of November there were 10 of us (5 white and 5 black) standing in front of the Root and Branch community center near Armitage and Kedzie. Some detectives pulled up and thought we looked very suspicious (racist pigs.) When they got out of the car a white brother (who was wanted on an old warrant) ran away. The pigs got uptight and started yelling at everyone. Willie Ray started yelling back - so the pigs threw him up against the wall and knocked him down. They went up to another brother, named Denny, who had his Rising Up Angry button on and said "You're one of those revolutionaries, huh?" Denny said that was right. They ripped off his button and told everyone to get up against the wall. Another brother, Ronnie Bronski, a member of RUA who is constantly being harassed by the 14th district pigs, said, "Let me call my lawyer." Keating responded to this by saying "O.K. call the wagon - all of you are going to jail." When we were getting into the paddy wagon, Keating beat everyone in the back with his club. At the station, this fool Keating frisked Ronnie and ripped a necklace off his neck that had a black fist on it. When Ronnie bent down to pick it up, Keating busted him on top of his head with the club about 6 times. When Ronnie fell down this foul dog kicked him in the head. Then everyone was thrown in the lock up. Ronnie was bleeding pretty bad. He made some phone calls and a lot of people from the community went down to the station. There were about 10 people there and Keating freaked out and started pacing the floor with a shotgun in his hand - trying to terrorize the people. The desk sargeant started calling Keating T.P.

Ronnie and Denny

One of the people was a priest so he had a little pull and woke up a judge at 1:00 in the morning to see if he could get the brothers out of jail. But the pigs took the phone off the hook in an attempt to keep the brothers in as long as possible. The judge kept calling and finally got everyone out on an I bond, after he himself was given the runaroung for almost 2 hours. A couple of days later the district commander, Johnson, said,"I'm going to get them" - meaning Dago, Ronnie and Denny. This is what we have to "serve and protect" us.

FASCIST SHOOTS AT EGG THROWERS

We were up at 79th and Wood on Halloween. All the young kids were throwing eggs and just being rowdy. They were all a little high. The pigs kept coming by and harassing them and when they caught the kids they would hit them in their pockets with black jacks and break the eggs. This went on for about an hour when this one rookie pig came up to chase the kids. When they ran away he took out his gun and started shooting at them. They were wrong for what they did but this fascist dog could have killed them and he didn't care. These are typical acts of the Gresham pigs (6th district.)

FULLERTON AND PULASKI

Around the 18th of October, my place was raided by plainclothes pigs. They had no warrent and they didn't respect our rights. They charged me with hiding fugitives. I was letting 4 brothers stay at my crib because they didn't have a place to stay and I was helping them out until they got squared away. Anyway, they put me in jail.

In front of Butch's place. (left to right) Crazy Al, Frank, Paul and Butch.

While I was locked up, a pig named Sacco, from Shakespeare, went to my place and told two of my friends to pack up everything and get out. While one was packing, Sacco beat up the other because he was wearing a T-shirt with a pig on it dressed in a cops uniform. Now everything and everybody was in the street. The pigs did some house work, like breaking a bed spring that wasn't mine and did some other damage. So, when I got out of jail the landlord kept my T.V. and record player for damages until I came up with $150 to pay for something the pigs did.

--brother Butch

SIMON CITY ROYALS

Well, it's busting time again for the people that hang around Irving and Ashland. And we don't dig it. Who do the pigs think they are?

We can't get together even to talk. If we do it's a sure bust. If we go anywhere, the pigs are on our tails. The other day one of our guys was standing on the corner of Irving and Ashland and the pigs came, asked him what he was doing, he said, "just standing around." The pigs took him in for "inciting a riot". This is really a bummer. We can't do anything around here anymore without getting busted.

About a month or so ago, the pigs come around and beat up any one they saw, if they were in the right or wrong. We are sick of hassling with pigs. Aquado is one of the main fascists—he is the biggest and fatest pig around. He is still out to get us from when he got shot around here three years ago and the school pig, Nolan, comes over and tells people who come around during school hours to get lost or he'll have the school call in other pigs.

We don't dig up on pig pens and we SURE don't dig pigs!

14th DISTRICT AT IT AGAIN

Two of the brothers from Monticello and Wrightwood, Dave Friedman and Pat Glimer, were walking down the street about 12:30 in the afternoon. Just walking down the street, when 3 narcs pulled up and searched them and threw them in the car. The pigs arrested them for selling dope. They brought them down to the Shakespeare station and made them take off all their clothes to search them but they didn't find anything. They still locked Dave up and had to let Pat go because he is under age. They charged Dave with disorderly . Man, it isn't safe to even walk down the street anymore because of those fascist pigs!

MONTICELLO & PALMER

Dear Angry,

About two weeks ago, on a Friday night, some of the brothers on Monticello & Palmer were rapping to each other. Then all of a sudden two pigs come out of nowhere and tell us to pull out some IDs. One of the brothers told the pig what he thought of him and the pig ran at us so we all split. Then he called for assistance like they always do.

Six pig cars chased us up and down alleys and caught two of our brothers. Three of them beat brother Jimmy and this fascist pig, Keating was on brother Teddy.

Last summer we had at least twenty people on our corner, "Sesame Street", but now there are about 5 or 6 that stay faithful. The fascists are going to have to kill us before we leave.

Brothers at Monticello and Palmer.

BROTHERS BRUTALIZED IN MCDONALD'S PARKING LOT

Mrs. JoAnn O'Donnell drove her son to the McDonald's (where he works) to check out his time schedule for the week. As she drove into the parking lot she witnessed some policemen "going about their business" by brutally beating some brothers and, as Mrs. O'Donnell said, "they were really enjoying it." She later sent letters to Sheriff Elrod and the Sun-Times to describe the horror of their actions. (This particular brutality took place in Franklin Park however, you may recognize the similarity of these beatings by the Sheriffs police to the beatings you get from the Chicago police)

Some of her description went, "four of your officers were viciously beating tow more boys outside of the car. One of the boys got in the car willingly and the officer pulled him out. Both boys on the outside of the car had their hands cuffed behind them. Your officers had gold of their hair and they would slam their faces into the edge of the roof of the squad, then pull them back and hit them on the side of the head or on their shoulders with their clubs. They used such a beautiful rhythm that they should of had music playing. One of the boys being beaten was already on the ground on his knees with his forehead on the ground. He was throwing up blood and his head was bleeding while two officers were kicking him in the back. This was the most sadistic, vicious display I've ever seen....another boy, about 17, was pulled from his car and had his back snapped. I think it was broken. Your officer put his knee in the small of his back and pulled back on his shoulders. I can still hear the kid screaming."

Mrs. O'Donnell still didn't quite get the picture, because when she was trying to get some badge numbers, one of the officers said, "You got business here lady?" He said he'd give her 10 seconds to leave or she'd get some of the same. NOW, she got the picture.....or did she? She wrote all this in a letter to Elrod and Elrod is investigating the "incident" and so far what he's come up with is that the witnesses to the atrocities in the parking lot, "didn't understand the situation." Maybe now Mrs. O'Donnell understands the situation - Elrod wants his pigs to act that way, in fact, they're probably going to get a citation for their fine performance. That's what repression is all about and if Mrs. O'Donnell and all the other people who witness these same kinds of examples of pig brutality want to find out what resistance is about - they should check out the revolution.

THE BEAT OF THE PE

WOMEN WIN OWN DIVORCE CASES

On September 29th of this year, 3 women acted a s their own lawyers and won default divorces for themselves - saving between $300 to $2,000 in lawyers fees. These women only had to pay between $50 to $70, which is the cost of filing the papers and covers court costs. (Most lawyers charge outrageous prices for default divorces and they don't even do any work on them anyway - they have their secretaries run around and file the papers and all the lawyer does is show up in court - one morning.) No one had ever acted as their own lawyer in a divorce court before, so when these three women went before the judges, the court was taken by surprise. But all wnet well, the women had filed their papers and were prepared to testify. When the first woman stepped up to the bench the clerk was shocked and said, "She can't do that - can she?" The judge had to agree that she could represent herself. After she won her divorce the judge told her how impressed he was.

All three women learned how to handle their own cases from the Women's Law Caucus of Chicago, which was formed last spring in order to aid women in legal matters. Basically a default divorce is when your husband agrees to the divorce or he's been long gone and isn't going to fight it. It's not an easy decision to make - and after going thru a lot of changes and finally deciding that a divorce is the only answer - most women don't have an extra $500 around the house to get a legal divorce - so they don't get one. In a lot of cases people stay together simply because they can't afford to break up. In a lot of other cases, people break up but never get a legal divorce and it can cause a lot of trouble if either person decides to get married again and it's also difficult if there are children involved and you get into custody hassles.

For these, and many more reasons, the Women's Law Caucus decided to try and help women when they make decisions about their own lives and then run into "road blocks". If you're interested in finding out more about it - contact these sisters by calling 649-8576 and leave your name and number for Molly to call back.

POWER TO THE SISTERS!

A LETTER FROM COOK COUNTY JAIL

Brother Frank Foster, currently being held in the fascist confines of the Cook County Jail, has been sentenced to a 2 to 6 term for armed robbery. Frank wrote our legal program about 6 months ago explaining his problem to us and how the courts had messed him over. We responded by getting him a lawyer and rapping to him on visiting days about our organization and the revolution in general. Frank was held for 20 months because he couldn't make the bond ($5,000).

When Frank finally went to court, he knew he had no chance of beating the case because going into the beef, he already had 3 things going against him. He was black, poor, and had a police record. So he did what 90% of the people with criminal charges hanging over their head do: he copped a plea. The pigs wanted to give him 5 to 10 but because we got him a lawyer he got 2-6—the courts get intimidated when they see a lawyer but not enough to cut him loose.

(cont. top next column)

Due to the way Frank was messed over and our raps with him, Frank got very political. The following letter was written by Frank Foster right after his sentencing:

Hey Bill,

I'm sure you have heard about how things turned out for me in Court. But that only made me stronger, and caused me to open my eyes and really understand the job, we have before us. Bill, I'm sure that you and the People will take care of the assignment, and keep in touch with me. They can lock up the man but they can't lock up the man's mind. No, nothing must stop us. No matter where we are, not even in death. And believe me I want to live, I've got no hang up with that, but if we are to succeed, then we must be willing to die for this cause. Death is an inescapable reality, and men die daily, but good deeds live forever. If I die tonight and you wake up tomorrow, make the most of it.

Bill, I have a sense of urgency about what has to be done. It is not the thought of death so much as it is the crying need for justice. Perhaps both facts motivate me simultaneously. Nevertheless, I have no choice but to keep on driving. We can't devote the evergy necessary to confront the system unless we are consumed by the need for liberation. And we know how awful the secrets locked in America's soul really are. So stay on the xase and keep me informed.

MILITANT INDIANS OF AMERICA

The other night, a brother and myself got to rap to two Indian brothers from Alcatraz. They were originally from a So. Dakota Sioux reservation. They were among the last defenders of the Alcatraz liberated territory and had been there when the US pig assault came. 15 cutters, 200 US marshals, 40 FBI agents and various other fascists brutally beat and assaulted the last 30 defenders (including children) of the island. 9 of the Indian women were raped. Somehow none of this made the pig press.

Later, the regrouped and decided that a group should move on Washington D C. where they plan to occupy the land and present their grievences, which go back to broken 'treaties' of 1869 - 1882 - and 83. These treaties gave the Indians the unoccupied land in the western half of South Dakota. They have never had this land. The pigs back then spoke with a forked tongue - same as now! Remember all those promises to get out of Vietnam.

These brothers are from the Militant Indians of America and said "you'll know us by our actions-action is supreme " and "The spirit of Crazy Horse (who united all the tribes in order to defeat Custer) lives in the heart of our movement - with this spirit the tribes willl unite again with the other revolutionary peoples to defeat the pigs!

PIGS vs PEOPLE'S DANCE

Sisters & Brothers

Yesterday and today the 17th distaitc pigs put considerable pressure on the owner of the dance hall at 4814 N. Kedzie to stop the Rising Up Angry People's Dance.

Angry put it's lawyers to work and came up with a plan to have a mass meeting (with entertainment provided by the three bands who were left with no dance to play at), instead of the regular People's Dance. Cost (in order to be legal) was free, instead of the original $1 admission.

However, the owner had been leaned on considerably by the 17th district pigs, and was afraid to let us go ahead.

It is clear that this is a case of political repression against Rising Up Angry and the people. A dance was held at the same location last week, with no trouble. But for Angry to have a dance, bringing so many brothers and sisters together, building unity among the people, and raising money for the Legal Program, puts the pigs very uptight.

We must criticize ourselves for not forseeing all the possible ways that the pigs might try to stop the People's Dance. We will announce, in the near future, a People's Dance when we have taken more careful and detailed steps to insure its success. Until then, remember that it is a good thing to be attacked by the pigs, for when the enemy attacks us, it means we are serving the people.

ALL POWER TO THE PEOPLE!
RISING UP ANGRY 472 - 1791

Thank you - to all the brothers and sisters who came out to the last scheduled People's Dance on Saturday night the 27th. People from Angry were waiting with leaflets to explain what happened, as it turned out - about 100 people or so came by and got into raps and drank a little wine and had a real good 'people's' time in the street! The spirit of the people is truly high! - and it's getting higher all the time! See you at the next dance.

3500 BLACK & WHITE PULPWORKERS STRIKE

Pulpwood haulers often work 12 - 13 hours a day, starting at 5 in the morning, and they barely make $2,000 a year. When the Masonite company, which buys their wood, called for an additional 1900 pounds of wood per load just to make the same amount they were making before, it meant a 20 - 25% cut in pay for the men. So, on September 1st, 200 pulpwood haulers, both black and white, declared a work stoppage at the Masonite Plant in Laurel, Miss. Since then, the strike has spread through the Gulf-coast Pulpwood Association and now there are 3500 cutters and haulers out in the 10th week of the strike.

Because the wood haulers sell to dealers, they are technicall considered independent businessmen and are not eligible for insurance, minimum wage, or workman's cdmpensation. And since they are not "employees" of the company (that buys the wood) they can't belong to the union. The strikers are demanding a standardized cord measure for wood insted stead of the "dealers" unit measure and also a fair price for the cord.

The Pulpwood Association is a 9,000 member organization of woodcutters and small landowners in the South. The membership is about 60% black and 40% white. The unity of the strikers has put some of them through changes. A black cutter talked about the several women, black and white, who wnet to Canton, Miss. to receive some financial support and clothes. "Well, my aunt came in happy as could be. Said she'd had a fine time. The women, they stopped in a place to eat and they went in, but the restaurant wouldn't serve no black folks, so the white ladies get up and says, 'Too damn bad. You won't serve us either the.' And they up and left. The same thing happened at 4 other places til they got to Jackson where they could eat together."

Another cutter summed up the power of organization by saying, "We found out that when a bunch a' little puppy dogs run off with their tails between their legs, sometimes they get together in a pack and chase the hell outta whoever slaps 'em."

BROTHER LEFT TO DIE AT OLD JOLIET PRISON

On Tuesday, November 23rd, Arthur Freeman, an inmate in the Special Program Unit at Old Joliet Prison, died from lack of medical attention. He had a serious head injury and on Tuesday he requested a doctor (no doctor has been there for a month). No one was sent to see him and the other inmates raised hell for 8 hours until someone came to his cell - - and found him dead.

That same day, Nagi Zacuzomo, another inmate, was removed from his cell, beaten with blackjacks by 3 guards, forced to strip and was kicked and kneed in the testicles. He's still in very bad shape and was told not to expect any medical care. The Attorneys for the brothers inside had to go to court to try and get a doctor (not employed by the prison) in to take care of the brothers. Spirit is high inside and the brothers make it very clear that they are together and fighting for each other. They ask for support on the outside for any actions they may have to take for their survival and resistance on the outside against any moves made against them.

Sometimes it seems to me
This whole world is a prison yard.
Some of us are prisoners
The rest of us are guards.

VANGUARD JAILBREAK

Two brothers, in jail in Raiford, Florida, crashed out of jail last week, using a tool of the people—a homemade tank!! They escaped under a hail of pigs' gunfire.

Rex Gyger, 26, and Wallace McDonald, 43, built a "tank" after breaking into the furniture factory where they worked.

They enclosed a fork-lift truck with 2 thicknesses of 10-gauge sheet metal with four layers on top. They cut a slit in front where they could see through. After it got dark, the brothers drove the tank toward the gates of the main prison and crashed through while guards fired down at them from the tower above.

The bullets didn't penetrate the steel.

A prison authority said the brothers abandoned the vehicle and officers and dogs tracked them through the woods before finally losing the trail. He said a truck was stolen nearby and abandoned at Lake City but there was nothing to definitely implicate the escapees in the theft.

WHAT ARE YOUR REAL WAGES?

If anyone is still under the impression that the cost of labor is the reason for the increase in prices and behind the runaway inflation - like Nixon keeps trying to tell us - dig these figures from the government's own records:

During the period from 1965 to 1971, prices rose 28.4%. The real wage (the amount of goods you can buy with your wages) payed to workers during that same period actually went down. Ther average weekly real wage in 1965 was $102.41. In 1971, the average weekly real wage was $101.81. In other words, while prices went up 28.4%, the average weekly real wage of American workers went down 60 cents.

Year	%increase	average real wage
1965	2.9%	$102.41
1966	2.8%	$102.31
1967	4.2%	$101.26
1968	5.4%	$102.45
1969	5.9%	$101.49
1970	5.5%	$ 99.66
1971	not figured yet	$101.81

BROTHER STARTS FREE BUSSING PROGRAM

Last year, Rising Up Angry ran a cartoon about how some brothers and sisters liberated a CTA bus and rode around the city, picking up passengers for free until they got pulled over by a pig. The cartoon tells the rest of the story.

A few weeks ago, a brother from the south side, Carroll McGuire, moved to put this into practice. He lifted a bus from the CTA around 69th and Ashland and headed over to his girlfriends house. But, being a servant of the people, he picked up passengers all along the way. As one of them described it, "The driver (Carroll) told us that we wouldn't have to pay the fare because he didn't have any transfers. Right on!

Carroll finally got busted for criminal tresspass and stealing a bus - because some pig couldn't stand seeing the people ride for free. (If Carroll needs legal advice, he should call RUA at 472 - 1791 or come into our legal clinic on Wednesday nights from 7 - 9 at our office 2744 N. Lincoln). We hope future bus jackings end up like the one in the cartoon!

GRESHAM PIGS BREAK BROTHERS ARM

Me and one of my partners were going past 111th and Western in my car, when all these dudes came running at us trying to break up my car. We got away and everything was cool. The next day, we went by on my bike and we heard someone say "OK pull over". We thought it was the cats from the day before, so we split - - fast! As we were going down the street, we finally realized it was a pig - so we pulled over. They jumped out and started beating on us. I didn't know what was happe ning because it all happened so fast. They beat my partner so bad that he had to go to the hospital. We were both charged with aggravated battery and resisting arrest. They also made out an accident report because they wiped out my bike and they had to show a reason for the damage. They had the nerve to say we got in an accident and then started fighting with them.

These pigs were from the Gresham district and the arresting officer was a pig named Hearly who is a known loud mouthed chump, and he doesn't do anything unless his partners are with him. When we went to court - the state's attorney said we could cop a plea and not get any time. That's real nice - - the pigs ruin my bike, break my partners arm and beat the crap out of me and this chump tells me we won't get any time.

BROTHER BEATEN FOR SPEEDING

We were riding in my car in the area of Maywood and Melrose Park early Saturday morning (1 am) when we were pulled over by some policemen for a speeding violation. Chris and I (John) tried to talk to these cops about their headlight that wasn't working, wondering how they could arrest us for something when they were as much of a hazard on the road as we were. Their answer was "We're policemen and we don't need headlights. How do you expect us to sneak up on people when our cars are all lit up?" At no time did we try to deny that we were speeding and were only trying to talk to these cops and figure out what was going on. After more hassling and threats by the cops, that we were going to be in big trouble, they called 3 more squads and told us we were going to the station for disorderly conduct and interferring. As Chris was getting into the squad, he apparently was moving too slow, because he was beaten. A pig grabbed him by the hair, pulling a clump of hair out of his head, bent him over and kneed him in the head and chest, cuffed him and threw him in the car. I was not touched and got into the car with him. We got down to the station where we were hassled some more. Chris and I tried to communicate with these pigs but we were either told to shut up, or that we didn't know what we were talking about. Chris's coat fell on the floor and when he went to pick it up the pig, Grace, told him to sit down. Chris continued to try and pick up his coat and this time he was pushed to the floor. When Chris got up he was worked over by Grace in the head and face. (Grace is known throughout Maywood as a foul dog and has put a lot of brothers in the hospital.) His lip was cut, and he had lumps on his forehead and bruises on his neck. Both of us were thrown in jail for resisting arrest, after we had already accepted the traffic ticket, and were left in the cell with no blankets. I have the same exact charges as Chris - which is resisting arrest - and I was not even arrested because I wasn't driving.
"What's going on?"

WELFARE: MYTHS, FACT

Welfare is in a crisis all across the country. The crisis has been publisized in the papers and on radio and TV for a long time now but the media are avoiding the issues that would educate the people to the fact that this government created the need for people to go on welfare and now this same government is trying to cut these people out - leave them with no money to live on - kill them....but, everyone has the right to live!

Let's cut through some of the myths about welfare recipients so we can get a clearer picture of what the government is trying to do.

A lot of people think that most welfare recipients are able-bodied men who are too lazy to work. But, the US department of Health, Education and Welfare records show that less than 1% of the nation's welfare recipients are able-bodied men, and these men have to be seeking jobs through their state employment agencies to be getting welfare at all. Then who is on welfare? According to a recent survey by HEW:

24% are old-aged recipients
8% are permanently and totally disabled
1% are blind
50.3% are children
2.9% are incapacitated parents in the home

The remaining 13% are mothers. One fifth of the welfare mothers are in job training or are already employed but are making so little money that they still qualify for welfare.

Some say welfare mothers could work if they wanted to. Well, first, 70% of all AFDC children (aid for dependent children) are under twelve years old. Day-care, if you can find it, is very expensive - at least $1,915 a year for pre-school children and $634 for after-school care for older children. A mother with one preschool child and another one in school would have to spend over $2,500 a year for child care alone, that would be over half her income. In addition, the need for day-care is almost seven times greater than the supply. And the need is rapidly growing.

Every once in a while someone will say that welfare mothers can find decent jobs, but even if a mother could find child care, she still would be hard put to find any work at all. For example, last year in Cleveland, there were some 16,175 jobs available to women. But there were about 22,596 women looking for jobs (including 621 welfare mothers). The few jobs that are available rarely provide enough income to support a family. Unemployment has been consistently more severe among women over the last decade. In 1967, for example, the unemployment rate for women was 5.2% and 3.1% for men.

The government would have us believe that working women don't need welfare. But, we know that having a job is no guarantee against poverty; among all the women who worked 35 hours a week for 50 to 52 weeks in 1966, 26% had incomes from all sources (including alimony) of less than $3,000. The problem is getting enough money to live on - not just getting a job. Nixon knows these figures but he still pushes that 'putting welfare recipients to work' is the solution. He and his lackey lackey's at the local level are trying to force a Work Incentive Program where the welfare department can order a mother to take a job that the local employment office has arranged or else they threaten to cut her and her family off. So people will be forced to take any job, even if it's not covered by the pitiful minimum wage laws. It's a program to enforce 'slave labor'.

Racism in this country goes very deep and the government sends racist dogs, like Agnew, around to try to keep the people divided. He, and others like him, help create the myth that most welfare recipients are blacks. In fact the majority of welfare recipients are white - about 55%, according to HEW. 39% are black a

WHAT IS HAPPENING IN ILLINOIS?

In Cook County, the first two catagories to be cut are MANG (Medical Aid No Grant) and GA (general assistance). MANG is for people who the state claims have enough to live on ($168 per mo. for 1 person/$205 for two and so on) but cannot meet medical expenses. The main people that MANG affects are people who are seriously ill, such a diabetics or old people. The cuts mean: 1)a new color card for people on MANG - white instead of green. 2) this card is good for a 6 month period but it's only going to cover 2 clinic visits in that period. 3)People will be supposedly entitled to emergency room care - but the hospitals are so freaked by the cuts they already turn people away. 4)No prescriptions, exrays, lab services will be paid for unless you are already in a hospital or a nursing home. 5)People are still being admitted into hospitals.

As for GA, people primarily affected are unemployed men and women who are actively looking for work but cannot find any jobs. (Remember one of the cures for inflation is to increase unemployment). Now, these people who were getting $123.53 a month, will be getting $49. a month and their medical aid has been cut.

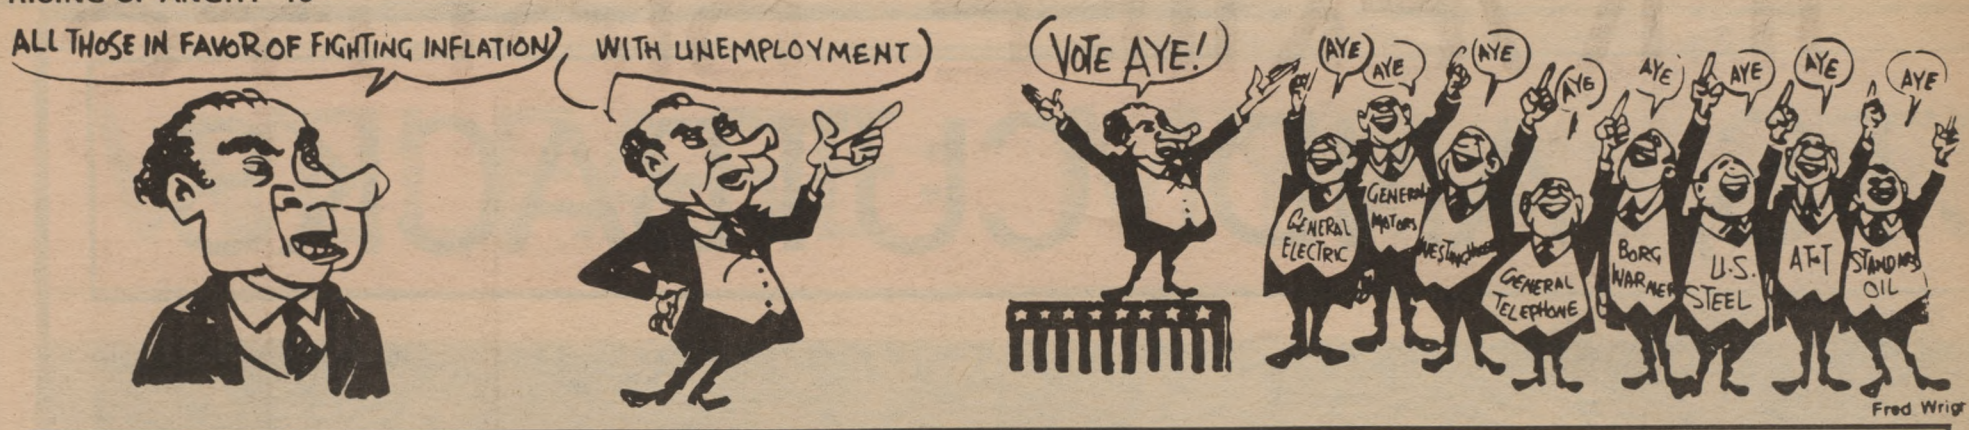
The Cook County cuts were supposed to go into effect on November 1st but they were postponed by a court decision. This gave the people time to begin to fight against the welfare system which is killing them. ADC mothers have marched to district welfare offices to demand winter clothing for their children. They won the demand at the Cabrini and Western office and Lower North has 1 week to come through with the money.

On November 1st, Gov. Ogilvie was hung in effigy by 700 caseworkers and welfare recipients who demand that the welfare cuts be stopped. Shortly after this mass demonstration the welfare recipients organized a lawsuit to impeach Gov. Ogilvie because he will be responsible for the murder of those who will be cut from welfare.

The Welfare Rights Organizations have been making demands upon the hospitals (thru the Ill. Hosp. Assoc Assoc.) to keep their clinics and emergency rooms open to people who do not have their medical cards any longer or $17.50. So far most hospitals have agreed not to turn people away from the emergency rooms, but they won't commit themselves about not sending the bills to a collection agency right away - this practice will keep many people away from the hospitals even though they may be very ill.

Another thing the welfare organizations are helping people to do is to get a hearing. Each person who is being cut off welfare is entitled to an individual hearing. They want every person across the country who is being cut to get a hearing.

Every welfare recipient, in fact, every person paying taxes should have a hearing with the government to find out why they can spend 36.7% of tax money to kill the Vietnamese people - but they can't spend more than 1.9% of tax money to save lives. These welfare cuts will mean death to some people. We must all unite with welfare recipients in their struggle for survival.
ALL POWER TO THE PEOPLE!



INFLATION

INFLATION → PHASE I= WAGE-PRICE FREEZE → PHASE II= WAGE FREEZE, PRICE HIKE → UNEMPLOYMENT → REBELLION → REPRESSION → FASCISM → GENOCIDE → REVOLUTION

Since the beginning of the wage-price freeze, Nixon and all the other politicians have been trying to convince us how things are getting better. They're also saying that we should sacrifice now for the good of the nation. To prove that we're better off the newspapers have been printing a lot of numbers and statistics that don't make any difference when we get paid and try to pay our bills. Before we try and figure out what Phase II means as compared to Phase I and what it means when Nixon says that the freeze was successful, let's take an objective look at our condition in general.

Most families are struggling to survive and very few people have anything left over to save. About 20% of the people have no savings and more than half of the people have less than $750. The median income for black families is about $6,000/year. This means that half of the black families in the United States make less than $6,000. Half the white families in the country make less than $8,600. In addition, there are many communities such as Gary, Indiana that have an unemployment rate of more than 40%. And from a personal point of view, things seem to be getting worse.

More of our friends and relatives are losing their jobs every week. There's less money for Christmas this year than there's been in a long time.

Nixon says that the cause of these problems in inflation. He says that the dollar doesn't buy as much as it used to and if we can stop inflation the rest of the economy would pick up.

Inflation means that money represents less work. In other words a dollar is what you get for a certain amount of labor. The government, on the other hand spends a lot of money on things like the war in Indochina. They can't get enough money in taxes to pay for the war so they print more money to spend themselves. So there's a lot of money spent that nobody worked for. This makes the dollars that we have worth less. The more th government spends, the less our money can buy. So it's the people who are suffering for the government's imperialist spending.

Now Nixon wants to stop the inflation and he decided that the average person should suffer for it by working more for the money or by not being employed (unemployment) so that we have no money at all.

In general, we know that the problem is that most people don't have enough money to live on. Nixon's solution is to freeze wages and create unemployment. He did it in 2 phases to confuse us. Phase I was an attack on working people in the United States and the businessmen in the other capitalist countries. Wages were frozen for 90 days and the raises we were supposed to get aren't being made up. Prices were frozen after they'd already been raised. Tax breaks were given to big corporations to buy new machines that will make more profits and put more people out of work. Taxes on imported goods were raised to make things like foreign cars more expensive. This is Phase I and it was supposed to last for only 90 days.

Next came Phase II. This was basicly that Nixon set up boards that would continue the general policies of Phase I indefinitely(forever). There's a cost of living concil that is made up of Nixon's advisors that supervises the whole program. Then there's a pay board to decide how much of a raise we can get. This is dominated by big business and they've already decided that the money lost during Phase I won't be made up and they put a limit on wage increases to 5.5% There's a price board made up of the very people who benefit from high prices. The heaviest thing is that the government now decides how much money we can make.

In a fascist country the big corporations and the government merge together to help each other exploit the people. We used to have to fight the boss for a raise. Now we have to fight the federal government. Nixon and the fatcats he set up control the wages, they fix the prices, and they can take away our right to strike. The fascist new economic policy has put total control of our economic life in the hands of Nixon and his flunkies.

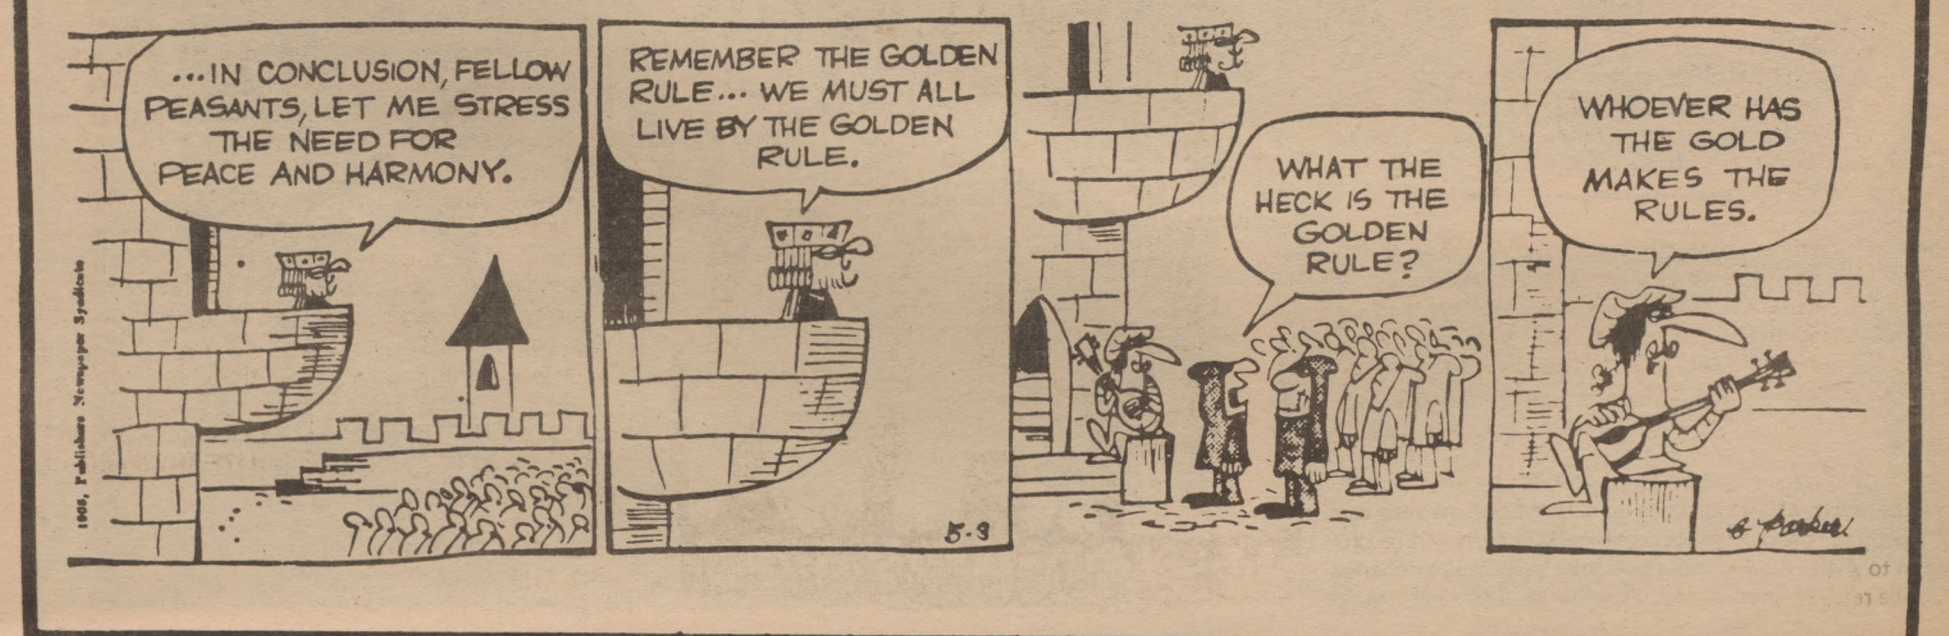
There's more to the current economic crisis than inflation and struggles over wages. The city and state governments which are supposed to provide services to the people such as welfare, hospitals, education, and housing are not coming through. Most local governments are in fact broke. Welfare has been cut in Illinois. But Illinois isn't the only place. Welfare has been cut in almost every state in the country. Schools are being shut down because of lack of money. Government workers are being laid off. Public hospitals are overcrowded and give inadequate care. In general the cities are falling apart and no one in power has any strategy for solving the problems.

The only government agency that is growing is the police department. This is true from the CIA and FBI to the local police departments. It's not surprising because along with a Fascist economy comes police state repression. It's not a coincidence that the massacre at Attica came at the same time as an economic crisis. When the system gets in trouble it becomes violent and desperate. People rebel because of their conditions. Instead of trying to change the conditions the fascists try to put a stop to the rebellion by force. So billions and billions of dollars are being poured into building the police.

It's important that we understand that Fascism is a total system. Fascism stops the war in Indochina by increasing the bombing. Fascism solves economic problems by taking money away from the people. Fascism closes the schools and hospitals and builds prisons. Fascism tries to make the people fight each other for their own survival while its the government that is in total control.

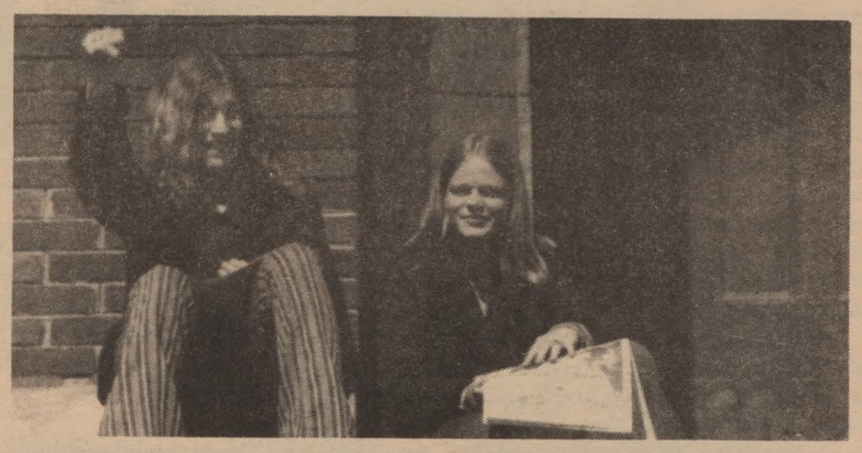
So we can see that Phase I and Phase 2 are Nixons attempts to balance the economy and halt inflation by attacking the people. We have to be unified in order to fight back. In every community we have to demand that our schools stay open and get more money, not less. We have to organize to demand a raise in unemployment and welfare benefits in order to survive and not let the government try to cut us out of the picture. And in every factory, everywhere we work we have to demand the wages we deserve. Only the most militant demands are listened to --- the recent demands of the mine workers had to be met because of their militancy. People are more important than government profits but the government is preparing to wage a war against us when we ask for what's ours --- we must be prepared to fight for all the people.

DARE TO STRUGGLE – DARE TO WIN!
ALL POWER TO THE PEOPLE!



...IN CONCLUSION, FELLOW PEASANTS, LET ME STRESS THE NEED FOR PEACE AND HARMONY.
REMEMBER THE GOLDEN RULE... WE MUST ALL LIVE BY THE GOLDEN RULE.
WHAT THE HECK IS THE GOLDEN RULE?
WHOEVER HAS THE GOLD MAKES THE RULES.

JUVENILE RIGHTS



Being young in America is tough and getting tougher. In the eyes of the law, any man under 17 and any women under 18 is considered a 'juvenile' and therefore has very few rights. Recently, the intolerable treatment that juveniles suffer under the law in Illinois was brought out in the open after a few brothers from Sheridan risked their lives to testify about the conditions in that institution. The fact that most brothers get indefinate sentences as juveniles which leaves them serving more time than adults serve for similar offenses, was finally brought out in judge Parson's court. The pigs are always threatening to put brothers and sisters away - and once they do - they try and keep you away forever. As this country is becoming more and more fascist, it's up to us to fight it in every way, in every place, we can. This article tells a few good things to know about juvenile laws so that you aren't left 'at the mercy of the court' if you're busted. The court has no mercy so you need to know your rights and it's good to have a lawyer to help you fight for them.

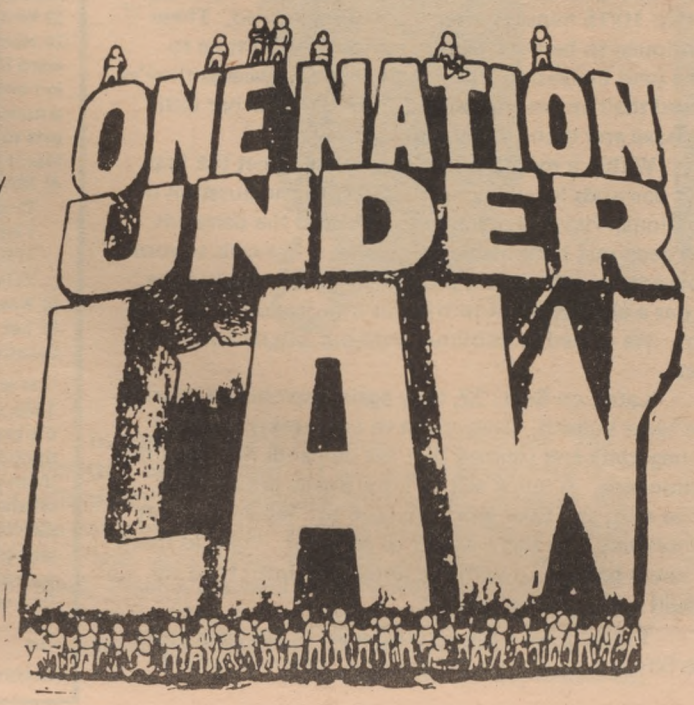
Juveniles (brothers under 17 and sisters under 18) are never really arrested - - they're just taken into custody Twenty four hours after being taken into custody, a juvenile must be turned over to a youth officer. Parents must be notified within 48 hours.

Sometimes the pigs will just take you down to the local pig pen and write up a card and then release you to your parents. If you play it cool and weren't picked up for anything heavy, they may do this. It's a hassle for them to get you down to the Audy home (jail) and since you aren't really arrested, the pigs get no citations for it like they do on "adult" cases.

But if the pigs aren't into letting you go, they will call a youth officer to write up a "petition" on your case. Then you, the petition and the youth officer will be driven to Audy intake. Here you may have another chance to be released into someone's custody. The Audy intake officer (especially the night duty ones) can sometimes be convinced that it would be much better for you to go home with some "responsible adult" than to spend the night in the over crowded Audy intake.

If none of this works, the next day you will go before a judge for a custody hearing - - to determine whether or not you should be kept in Audy home until your ajudicatory hearing, which is like a "trial" or a "finding of facts". This should happen within 10 days after your custody hearing, especially if you are to be kept in Audy home.

You have a right to be represented by a lawyer, even if your parents don't agree to it. You also have a right to make a phone call to a lawyer or a friend who will contact one for you. (This phone call should be asked for at the police station; if it isn't granted, ask for it again at Audy intake.) These are about all the rights you have as a juvenile, so take advantage of them!



At your adjudicatory of so-called fact finding hearing, it will be decided whether or not you are "delinquent" (that is, a juvenile who has committed an adult crime) or "a minor in need of supervision." If the judge finds there is no reason to hold you he will let you go with your parents or a so-called "responsible adult." If you are found to be a delinquent in need of supervision, or neglected, you may or may not be released to the custody of your parents or a responsible adult until your next hearing.

The next hearing is called disposition (like sentencing). It should be held - - at the most - - 30 days after the adjudicatory hearing. If you have to remain in the Audy home, make sure that your lawyer, or the so-called public defender follows through on making sure that you get this hearing. At the disposition hearing different things happen. You can be let go to your parents or responsible adult. The court might decide that you must be taken out of your home and they will appoint a guardian. Or they can have you committed to the Illinois Youth Commission, which will assign you to one of the juvenile penal institutions after processing and "testing" in Joliet. At one of these juvenile institutions, Sheridan (mentioned before) you can be held until you are 21 - even though you are no longer a juvenile. You have a right, however, to go into court and have a hearing on the disposition at any time.

GI'S ON THE MOVE

Our brothers in the military have been used for cannon fodder for too long. We get drafted into the army or forced to enlist so we won't get drafted, or forced to go in the army to get out of going to jail. Once in the military machine we do all the shit work, suffer the abuses of deranged drill sergeants and lifers, and worst of all, we are sent to foreign countries (like Vietnam or Cambodia or Laos) to kill and oppress the people there. United States GI's are in the middle --- oppressed, on the one hand, by the United States government, and oppressors of the Indochinese people, on the other hand.

Whenever people are oppressed, they begin to fight back against their oppressors. In the course of our struggle against the United States ruling class we have seen that the Indochinese people are also struggling aginst the United States ruling class. So, as our struggle (the struggle of GI's and all oppressed people) intensifies we see the "real enemy" is the United States government, the pentagon and the big businessmen (all three of these groups make up the ruling class) and their lackies (in the military-the lifers and at home-the pigs on the block) and that our real best friends are all those people struggling hardest against the United States ruling class (like the Provisional Revolutionary Government of South Vietnam, the Black Panther Pary, Young Lords Party and Weathermen).

As we have learned more clearly who our real friends and real enemies are, the struggle of our brothers inside the service has grown more rapidly.

Below are some examples of the types of things that GI's are doing to help free themselves - and in turn - free the people.

POWER TO THE REVOLUTIONARY GI's !!
ALL POWER TO THE PEOPLE!!

The President of the United States of America
The White House
Washington, D.C.

Dear Mr. President:

We are all presently in the Grand Army of the United States serving in the Republic of Vietnam. Since our government is "of the people, by the people, and for the people," we ask to be listened to.

Your policy in Vietnam is nothing short of ludicrous. True, you inherited the greasy pig from your astute predecessor, but you have played political games with human lives ever since. Our blood reddens the soil of this country to support a dictator who rules no less successfully with gestapo--like police than his forerunner, Hitler. Surely you are aware of the fact that South Vietnamese prisons are filled with political prisoners, usually students under the age of twenty-five, whose only crime is the advocation of peace. Tortures used extensively bring to mind the practices of the Spanish Inquisition only they were undoubtedly more merciful. Your reaction has been to award the immense U.S. construction firm of RMK-BRJ (of Texas, of course) a fat $400,000 contract to build more prisons for the incarceration of more political prisoners. Does it not seem strange Mr. President that Thieu is campaigning unopposed? His opponents have rightly dropped out because our support guarantees a totally rigged election. Is it not strange that an American disabled veteran would attempt to immolate himself as dozens of Buddhists before him in protest of our involvment in Vietnam? How can you justify the continuing creation of thousands of prostitutes, illegitimate children, cripples, and millions of refugees because you do not have the intestinal fortitude (guts) to admit America made a mistake by wading in here and you compound the mistake by not withdrawing immediately? Why is the American soldier hate with a hatred formerly reserved for the conquering Chinese and French? Is it not strange that Vietnam turned almost overnight from a rice exporting to a rice importing country because of our highly successful but indiscrimate bombing and defoliation? Yes, Mr. President, you can continue pinning medals on coffins and chests of bereaved parents, but those lives were lost and continue to be lost, not in defense of the goals of democracy, but by being flushed down a large sewer which you helped to construct and certainly to perpetuate. You tell us we are in Vietnam to honor our committment to the Geneva Convention, yet you trample the Convention at the same time by the use of napalm, defoliant, free fire zones, and the largest arsenal ever assembled, against a nation of simple peasants. Why are more civilians killed than enemy? Could it be that we can not tell them apart? How many My Lai atrocities have occurred that will never come to light? Is it not typical of the Army to place the blame on a lowly lieutenant and not the man responsible, Richard Milhous Nixon?

Your "new" economic policy is supposed to be a shot in the arm for the country but is actually a knife in the back for the GI and the poor. (Those two terms are interchangeable since there are few GI's who receive more than poverty level wages.) The troops in Europe are paid with currency worth a little more than its equivalent in Monopoly money. Soldiers everywhere are denied a raise barely in keeping with the cost of living, although the draft has been extended and the killing goes on, as usual. You have money to squander on boondoggle like the SST and ABM, yet you cut back funds for heart research despite the fact that heart disease kills more Americans than any other single factor.

You claim to be a Quaker, but you are also the greatest warmonger in modern history. Does not that strike you as inconsistent? We are sure that the Court Prophet Billy Graham gives you reassuring words on the golf course, but one thing is certain as expressed by the black Curtiss Mayfield, "If there's hell below you're all gonna go'" When you receive your just reward Mr. President, do not say that you did not earn it.

I thought you might be interested in a letter signed by many GI's and sent to the President by registered mail in a Department of the Army envelope. It's not much but we wish to let people know how we feel.

TYRRELL'S BOYCOTT

Our boycott of the two Tyrrell's Jewelry Stores on West Broadway has been going on for more than two months now, and this rip-off store has gone through a lot of changes. But one thing has become increasingly clear: no matter what kind of tactics they pull, it won't help them any. They'll soon be totally defeated.

The boycott started here July 30th in support of the similar one at Fort Hood Texas, and the call to spread the boycott nationwide (Tyrrell's has stores next to major military bases throughout the country, exploiting servicemen exclusively). The boycott has since spread to at least eight bases with great success.

The original demands were:

1. An end to sidewalk soliciting and high pressure salesmenship.
2. An end to the exploitation of homesickness.
3. An end to the use of the "Buddy Books" and the Vietnam honor roll.
4. An end to the use of the military as a bill collector.
5. A letter, written and signed by Tyrrell's head office, stating that the demands will be met nationwide.

We have just recently added the fifth demand to avoid being tricked by Tyrrell's empty promises.

Tyrrell's first response was to try to outlast us by staying open for long hours. But, faced with total lack of sales, they began a long period of closing within 10-15 minutes after the pickets arrived. These continued to be their tactics, although from time to time (and increasingly during the last few weeks) they've closed their stores and waited around the corner until we leave and then come back.

Within a month of picketting, they met the first four demands locally, and pressed with the question of a national Tyrrell's policy, they claimed the demands had been met nationwide. However, a few calls to some comrades at other bases proved this to be totally false. It was a clear attempt to trick us into stopping the boycott. We vowed to continue until our 5th demand was met.

Later, on Sept. 22, they again approached us with the same bullshit. They came to our weekly meeting to negotiate and claimed that the demands had been met nationwide. A quick call to Long Beach proved this to be a lie, and their story changed to "would be" met nationwide, but there would be no letter. We told them to come back to us with the letter, and until then we would continue the boycott.

Tyrrell's has gone through a lot of changes since the boycott began. In the old days, salesmen would stand in front of the stores and practically yank people inside, where they would be subjected to a high-pressure sales pitch about patriotism and loving one's mother (by buying her a $150 brooch.) Now their store windows are no longer red, white and blue, but are instead decorated with psychodelic "love" posters. And their latest sales gimmicks are a $2.85 "peace pin" and a free "look at a diamond under black light". They think that GI's are so stupid that they will be fooled into believing that Tyrell's is "hip". It's Tyrrell's who are the real fools!!

San Diego Serviceman points out Tyrrell's latest rip-off

San Diego's two stores are only a small part of Tyrell's chain, and realizing this, we are making special efforts to spread the boycott to even more bases and making sure that it continues at those that have been under attack. We are confident that it will spread and that Tyrrell's will be put under the mercy of all service people.

Here in San Diego we are continuing the boycott and are now making an appeal to all GI'S and supporters————————————————————————
HELP BUILD AN EVEN STRONGER FORCE AGAINST TYRRELLS!!!!!!!!!ALL POWER TO THE PEOPLE!!!!!!

Dear brothers and sisters,

Hope everyone's getting by and high spirited.

I hope you got my last letter. I mailed it Saturday the 30th of October. In this letter I'm sending the leaflet we just got together. We went to every barracks in Fort Riley with our members and put a leaflet on everyone's bunk, put them in PXs, Service clubs, USO Day rooms etc.

Well, I'll give you a run down of the happenings here—like the post re-up (reinlistment) building kinda burned down one night. Also a pig (major of our Ba.) was put out of his home by fire. There have been many bomb scares all over the post. And a lot of little things like windows busted out of orderly rooms.

Well, till the next letter—stay healthy and high spirited. Revolutionary Spirited!
POWER TO THE PEOPLE (leaflet)

KNOW YOUR RIGHTS

We realize that we need a good weapon against the brass to fight on - so in this leaflet we want to introduce to you the article 138. This is a legal weapon that can be used against them. You may use it against your c.o. or any officer, including the general. You file this 138 against the officer when you see he has done wrong - for example:

HOW TO FILE A 138:

1) Ask your own commanding officer for redress of grievance (correction for wrong done to you.) If he refuses:
2) Write down your complaint.
3) Hand it to any superior officer (not your c.o.) He must forward it to the officer exercising general court martial jurisdiction over the officer against whom you are complaining. (Check around - there are officers on this post who will make sure it gets to the right place, then again, there are officers who will lose it first thing.
4) MAIL OR GIVE COPIES OF YOUR COMPLAINT TO:
   THE POST COMMANDER
   THE STAFF JUDGE ADVOCATE (JAG)
   THE SECRETARY OF THE ARMY
   YOUR CONGRESSMAN AND SENATORS
5) Keep a copy for yourself in case the brass loses theirs.
6) Let the brass know you're writing to your Congressman and Senators.

One article 138 in a company can upset the brass. Fifty article 138s, our best strength is in numbers and solidarity, note that the brass will write to your Congressmen and tell them everything has been taken care of. You should deep in touch with them yourself, until the matter has been taken care of to your satisfaction. Often just talking about filing a 138 or being inquisitive about it is enough to scare the lifer into cutting out his harassment. After all, the last thing a lifer wants is an investigation into his record. We have known people to get leave (not counted yet) because they talked about filing an Article 138.

Stockade prisoners have the right to file an article 138 to correct conditions.

MADAME DINH

Madame Dinh met with Ho Chi Minh in 1946.

The people's army includes women as well as men.

Anti-war demonstration in Saigon.

Two Women from the Women's Militia

In Vietnam the people have shown the strength of a unified people's army in defeating first the French and now the USA. One woman who has come to the forefront of this struggle is Madame Nguyen Thi Dinh who is presently the Vice Commander in Chief of the Armed Forces fo Liberation of South Vietnam.

Nguyen Thi Dinh, th youngest of 11 children, was born to a poor peasant family in the province of Bentre. As young as age 11, she joined in the fight against rich peasants and the French colonizers in an insurrection that took place in 1930. Heavy repression came down on her family and one of her brothers was jailed. When he got out of jail he began teaching her more about political matters. Then at the age of 16 she became a messenger for the revolutionary movement fighting against the French.

Again, in 1939, repression came down very hard on the revolutionary movement. All known cadres (revolutionaries) and even poor peasants who were not involved in revolutionary activity were arrested and tortured. Madame Dinh's husband was jailed that year, only two years after their marriage. He died in prison without her ever seeing him again. A year later, she was imprisoned and her 6 month old baby was taken away from her. She was brutally tortured trying to get her to confess to subversive activities against the government; but she wouldn't speak. At the time she was arrested, 1,000 prisoners, including 100 women, were also arrested, most of them not knowing why. Madame Dinh took it upon herself as a revolutionary to educate all the sisters and brothers, showing that a revolutionary organizes and educates the people wherever she or he is at.

Madame Dinh

In 1943, she suffered a severe heart ailment. The oppressor, believing that she was unable to continue in political activity, released her from prison. However, she was constantly watched and was unable to travel outside the village. Any friends she made contact with were arrested. Finally, she went to work with the Viet Minh in 1944, and in 1945 she took her part in a popular insurrection against the French and the rich peasants. After that insurrection, the war of resistance began on September 23.

In 1946, Madame Dinh was sent to Hanoi to report on the revolution in the south. There she saw Ho Chi Minh. After completing that mission, she was sent to publicize the resolution on arming the people and on armed struggle. She went from village to village, bringing

the resolution to the people. Then Nguyen Thi Dinh led the armed uprising in the province of Bentre and was in charge especially of the military aspects. This is important because many people, although they recognize the need for sisters in revolutionary struggle, doubt the military capabilities of women. She continued her political work in this province and became one of the leaders. By 1960, in the struggle against the USA, she became the first secretary of the revolutionary organization in her native province. By the end of 1961 she became Vice President of the National Liberation Front. In 1964 she became a member of the central committee of the National Liberation Front as Vice President of the Military Chief of Staff of the National Liberation Front and President of the Women's Committee.

It is important for us to know the history of third world women who fought and are fighting for the freedom of the people. We usually don't know anything about them because even today, people believe women have no role in revolution. Yet women all over the world, especially Vietnamese women, have shown that revolution is the duty of both men and women.

FORWARD SISTERS IN THE STRUGGLE!

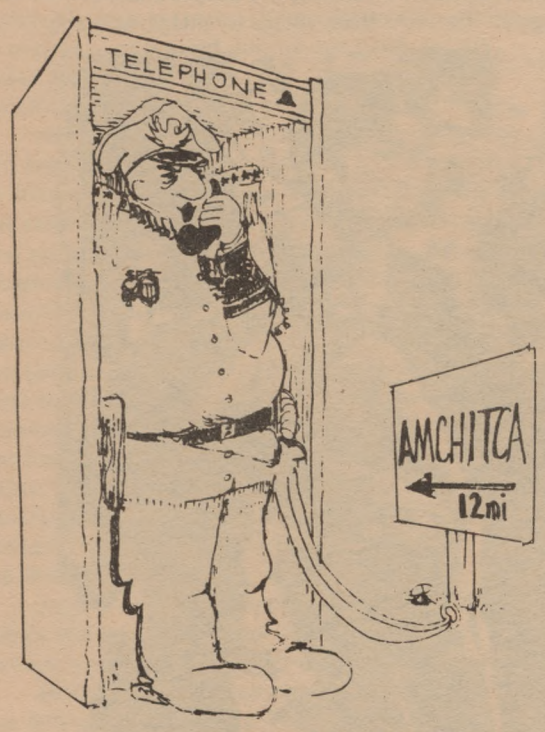
RISING UP ANGRY 14

AMCHITKA

On November 6th, the United States government set off an atomic blast, the biggest bomb it has ever exploded. The test site was underground, beneath Amchitka Island, just off the coast of Alaska in the northern pacific.

The announcement of plans to set this bomb off, met with protests from hundreds of thousands of people, four governments, Nobel prize-winning scientists and even 34 US senators. Ecology groups



Now get this. A bomb has been set...

tried to stop the blast by filing for an injunction, which was finally lost in the supreme court. 10,000 Canadian citizens shut down the Ambassador Bridge, which links Detroit to Windsor, Ontario, the Wednesday before the blast. The list is endless.

The major concern of those protesting the blast was that it might cause an earthquake or tidal wave, or that part of California might even fall into the pacific. This was not based on fear or hysteria, but on down-to-earth scientific information. Even Russell Train, Nixon's top environmental advisor, had warned Nixon almost a year ago, that the test could be dangerous.

But the government had no regard for these protests, however, and went ahead with the blast. Fortunately, there was no immediate disaster, but it remains to be seen whether or not there will be any radiation leaks or other after-effects.

The major argument that the US government used for setting off the blast was a technological one, based on having the best weapons for national defense. "You have to stay competitive to be in the market" said Marvin Moon of the Atomic Energy Commission. This is not the central issue however. To be sure, the government likes to test all of their military equipment, but to totally defy the numbers of people who protested the blast would lead one to look more deeply for its roots. The US government's foreign policy of armed aggression is what is at stake.

The precedent for this blast was the destruction of Nagasaki and Hiroshima by atomic bombs at the end of World War 2. There was no military purpose for these savage acts. There could only be one reason for the destruction of these two cities - to show who was boss of the world. At a time when revolutionary movements were on the rise throughout Asia in China, Vietnam, Burma, Korea, the Phillipines, Malaya and other countries, the US had a message to make clear: Asia will be a domain of US imperialism's economic and political control and we will use any means to destroy any opposition. This policy of brute force almost worked, as revolutionary movements were crushed in all but three countries - Vietnam, Korea and China. The Indochina war (1946 to present) and the Korean war were nothing more than unsuccessful military attempts by the US government and its junior partners, France, Britain,etc., to take back control of those two countries. Furthermore, if the US had won in Korea, there is reason to believe that they would have kept marching right into China. For years in the late 1940's and early 1950's the debate raged about how we "lost" China and how we should get it back.

Things have changed a little today, but not much. The US government has finally decided to accept the fact that revolutionary China is here to stay. But that doesn't mean that Nixon's trip to China is a peace mission, trying to end the war in Indochina, like many believe. In fact, it is reasonable to believe that his trip is for just the opposite purpose: to find some way not to end the war. All historical evidence would lead to this: 1 - When Johnson resigned from the Presidency and supposidly cut down the bombing, many people thought the war was going to end. It didn't. 2 - When Nixon announced troop withdrawals many people again thought the war was going to end. It didn't. In fact, in both cases the war was escalated behind the people's backs.

There is really no reason to believe Nixon's going to end the war and get out of Vietnam. If he really wanted peace he could have accepted the Provisional Revolutionary Government of South Vietnam's peace proposal at the Paris talks. It is a very reasonable proposal, and is the least humiliating way that the US could leave. Furthermore, why would a government seeking peace in another part of the world set off a huge atomic blast, against the wishes of it's own people, soon before the trip. The only reasonable answer is that it is part of a threat to the peoples of the world. Nixon's trip then makes sense. 1 - He can keep the American people confused, making them think he is going to end the war. 2 - Under ultimate threat of the bomb he can lean on the Chinese to sell out the Vietnamese struggle. (It's clear from the Paris talks that the Vietnamese themselves will settle for nothing less than total self-determination. Nixon has thus given up that angle pretty much) 3 - Nixon can try to open up Chinese markets for American business and at the same time try to steer China down a less revolutionary, more capitalistic path.

The ruling class of this country (the corporate rich and their front - man Nixon) do not make decisions by accident or by merely gut reaction. They plan strategy and think things through. But, in spite of their plans the revolution will win because it serves the people and will have the people on its side while the rich will only exploit the people and alienate them from the imperialist system.

The decision to set off the bomb at Amchitka was a political one. They decided that US imperialism's aggressive designs in Asia were more important than keeping the home front in North America quiet. They risked the effects of tremendous protest and possible ecological disaster because the Indochina war is the big struggle in the world revolution today. The ruling class knows that final victory by the Vietnamese will be a boost of morale to revolutionaries all around the world. That is why the US government is trying desparately to hang on just a little longer. Because when the US is forced to leave Asia, it will be clear that the world system of imperialism is doomed and socialism is in the driver's seat.
